

## Web Design

MIKELO builds websites to the highest possible standards, tailored to suit our customers' needs. Our highest aim is customer satisfaction and the optimal realization of your individual ideas.

We work closely together on various projects with design affiliates [eji.com](http://eji.com). Our design partner is a UK business, based in France, working with associates and clients in the European Union and worldwide.

Our prompt, friendly service and tried-and-true project management processes ensure that each client receives a top quality website with all the professionalism proudly associated with MIKELO.

We put our confidence in the usage of reliable Content Management Systems, which enables us to work both quickly and economically.

MIKELO also assists with eCommerce, marketing, web hosting, domain registration and any other website-related requirements. Our professional designers, developers and marketing personnel work together with you and your organization to develop a product that returns terrific results.

Maintenance plans are available and can be tailored to suit your website requirements. It is our personal aim to maintain your websites during its entire life cycle.
